

STOP the Taiji Dolphin Slaughter Campaign – PETITION

During these hunts, small whales and dolphins are rounded up into shallow bays and slaughtered with knives and hand-held harpoons. The drive fishery in Japan continues due to the demand for the meat however the demand for the animals to supply marine parks far outweighs the demand for consumption. This killing must be stopped.

Please support our campaign to stop the slaughter by adding your name to our petition. Simply provide your name, city & county to the 'Contact' page and forward this to NOMAD and we will add your details to our petition. At the end of 2009, our petition will be sent to all of the Japanese officials listed on our "GREEN Issues" page.

Thank You

"We the undersigned strongly condemn the slaughter of dolphins for meat in Taiji, Japan. - We do not accept that dolphins or any other marine mammal should be treated like a fish; they are a highly intelligent species with complex nervous systems that have the ability to show emotion. We find this practice of slaughter to be barbaric, primitive and wholly unnecessary."

"We appeal to the Japanese authorities and the people they serve to cease this senseless slaughter of intelligent mammals & to hunt alternative sustainable fish stocks that can be found locally thereby providing an alternative income for the local fishermen."
